## RECENT DEVELOPMENTS AT C. & A. AND S. & P. MINES

Ore Encountered in the Oliver Shaft Recently Said to Be Best Strike Since Opening of Original Ore Bodies--Water Problem Has Been Solved at Superior and Pittsburg.

The most recent development at the C. & A. mine was the encountering of high grade oxide ore on the 1,250 foot level of the Oliver shaft of the Gibraltar claim a short time ago. The ore rises in the S. & P. property as well as the C. & A. It was first cut at the 1,250 foot level and extends 25 feet. The same ore was encountered at the 1,150 foot level and extends 25 feet. The same ore was encountered at the 1,150 foot level about 150 feet east of the strike on the 1,250 foot level. The ore is a high grade oxide impregnated with native copper. In appearance it is similar to the Bonanza ore found at the 950 foot level of the Irish Mag shaft. It is the best strike made in the C. & A. since the opening of the original ore body.

The ground at the new Powell shaft is looking very favorable but the drifts have not reached a point where the management expects to encounter ore. The work at the Courtland district is progressing very favorably. The drifts at the 500 foot level of the April Pool shaft and the corresponding levels of the Germania shaft are in very favorable ground showing some mineralization.

### Superior and Pittsburg.

At the Superior and Pittsburg, the big ore body opened at the 1,200 foot level of the Horton shaft last year has been shown to extend about the 1,100 foot level and has recently been cut on the 1,400 foot level. Sulphide ore has been encountered on the 1,500 foot level of the Baton Rouge claim in drifts running from the Horton shaft also in the same claim in drifts extending from the 1,500 foot level of the Junction shaft. Good sulphide ore has also been cut on the 1,300, 1,400 and 1,500 foot levels of the Junction shaft in the Ormond claim, 1902 between the Junction shaft and the Briggs shaft and large bodies of oxide ore and leached ground have been opened on the 1,100, 1,200 and 1,300 foot levels east of the Junction shaft.

The 1,400 foot level of the Junction shaft is dry, all water now draining to the 1,500 foot level. It is estimated that by January 1, the water will have drained from the territory tributary to the Briggs shaft, so that operations may be resumed and the shaft sunk 200 feet without encountering water giving it a depth corresponding to the 1,400 foot level of the Junction shaft. Present conditions indicate the development of extensive ore bodies in this territory in the next few months as all the openings are either in ore or in ore bearing ground.

### PETITION FOR NEW SCHOOL.

Eleven residents of section 10 and 15 of Oscoda township have affixed their names to a petition asking the Oscoda board of education to establish a school nearer the locality of their residence as at present most of the children are not receiving any instruction owing to the distance to the nearest school. There are residing in these two sections, No. 10 and 15, eleven families in which there are more than thirty children between the ages of six and sixteen. There are many over sixteen years of age and many more under six. In another year the number of children between the ages of six and sixteen will be more than forty. In two years it will be close to fifty.

At the Boston M. E. church, the Lord's Supper will be administered in the morning, with a love feast at 9 o'clock. John Rundle of Hancock will preach in the evening.

### THE GIRL FROM THE U. S. A.

Calumet theater goers will be privileged this afternoon and evening to witness a presentation of Harry Scott's musical comedy drama, "The Girl from the U. S. A." This entertainment differs from the usual comedy or comic opera in that it is a play with a plot, and highly dramatic at times. The scenes are selected from two hemispheres, and the music is new and catchy. The play is interspersed with well selected comedy and is sure to appeal to the Calumet theater patrons. The costumes are new and up to date and will undoubtedly add to the impression which the production leaves.

## LOCAL FINNISH PEOPLE SAY THAT FINLAND WILL REBEL

Calumet Finns Declare Their Native Land Will Not Pay \$4,000,000, Demanded by Russia, Without a Struggle--Annexation of Viborg Also Cause of Dissatisfaction.

Calumet Finns, and Finnish people throughout the country, are generally stirred up over the report that Russia is demanding \$4,000,000 of Finnish money for the support of her army and navy. A prominent local Finnish resident stated this morning that he looks for a lot of trouble in Finland before the money is paid over. He believes that Finland will rebel. Calumet Finns are watching the situation closely, and the Finnish people will receive their moral support and possibly financial aid should occasion arise.

When the matter was put up to the Finnish senate that body refused to comply and resigned. Their places are now being filled by war officers of Finnish descent, but who are Russian in every tendency, having been brought up in the land of the czar. The governor-general, too, is a Finn with decidedly Russian tendencies and there is not the least doubt but that the new senate or diet will stand by the czar's cause, and vote the money to the Russian government.

According to The News' informant trouble will then ensue. The Russian government also proposes to annex the province of Viborg to Russia. Viborg was annexed to Finland during the reign of Alexander I, about a century ago, and has since been retained by Finland. The annexing of this province by Russia will be a violation of Finland's constitution and laws, and like the money question is stirring up the Finns.

"Whether Finland is prepared for an uprising or not, remains to be seen," said this local Finn, "but it is practically certain that she will not submit to this outrage on her constitutional rights without a severe struggle. The czar has had an instance of what Finland can do when she is united and determined, and it is possible that even yet the ukase annexing Viborg and demanding four millions of money may be revoked, ere it is too late to avoid trouble."
